CAMPUS LANDSCAPE LOOK BOOK

MAY 2024

CAMPUS LANDSCAPE

Here is your copy of our new Campus Landscape Look Book

Whether you're looking to embark on a **Capital Project** or simply want to re-purpose a small area, then take a moment to browse this document.

It is not just another product catalogue and nor is it a white paper report. It is simply a collection of ideas and suggestions to help you when considering the many different spaces that can make up a modern higher education campus.

Inside you will find furniture solutions to meet the demand for tried and tested environments as well as accommodating changing practices and supporting your **sustainability, diversity and inclusivity initiatives.**

Aimed at providing an enhanced student experience, it also demonstrates how we can support you ahead of any scheme you may be preparing to undertake – **all via a valid framework procurement route**.

LEARNING LANDSCAPE

FLEXIBLE CLASSROOMS

CARDIFF UNIVERSITY
WELSH SCHOOL OF ARCHITECTURE
WAGSTAFF INSTALLATION

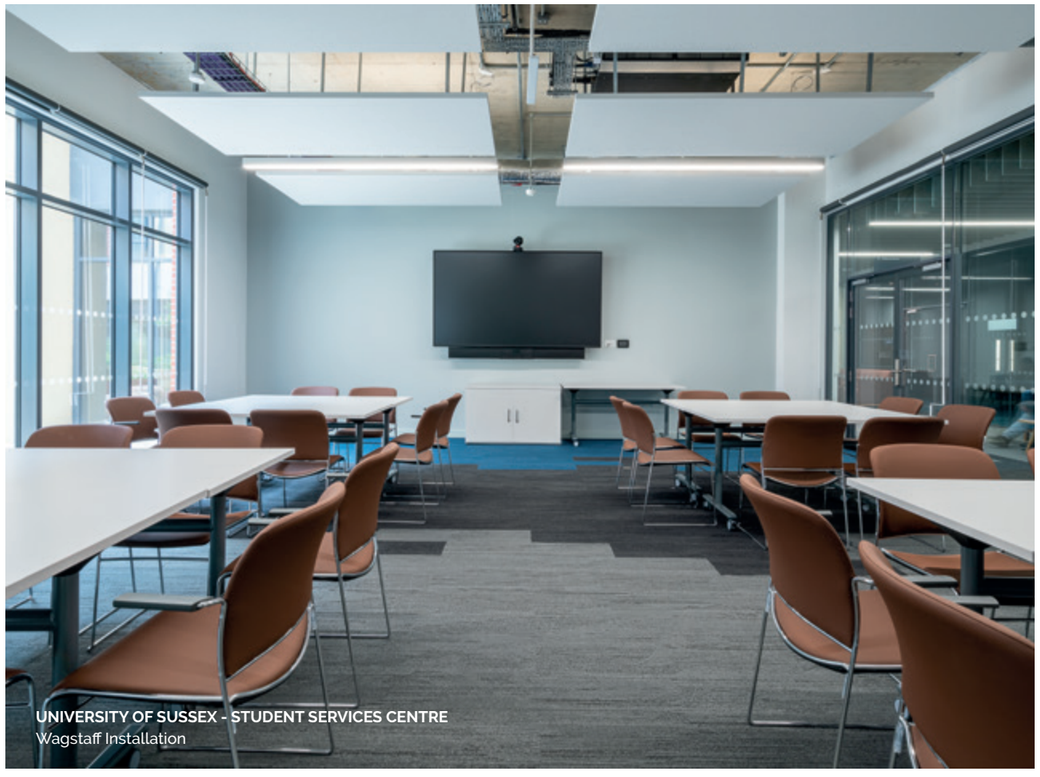

Super-sized classrooms with folding walls allow for flexing class sizes, providing timetabling teams with more course options

LEEDS UNIVERSITY
WAGSTAFF INSTALLATION

More and more, we see our clients trending away from fixed room settings and to a multi-purpose space that can be changed for any teaching style

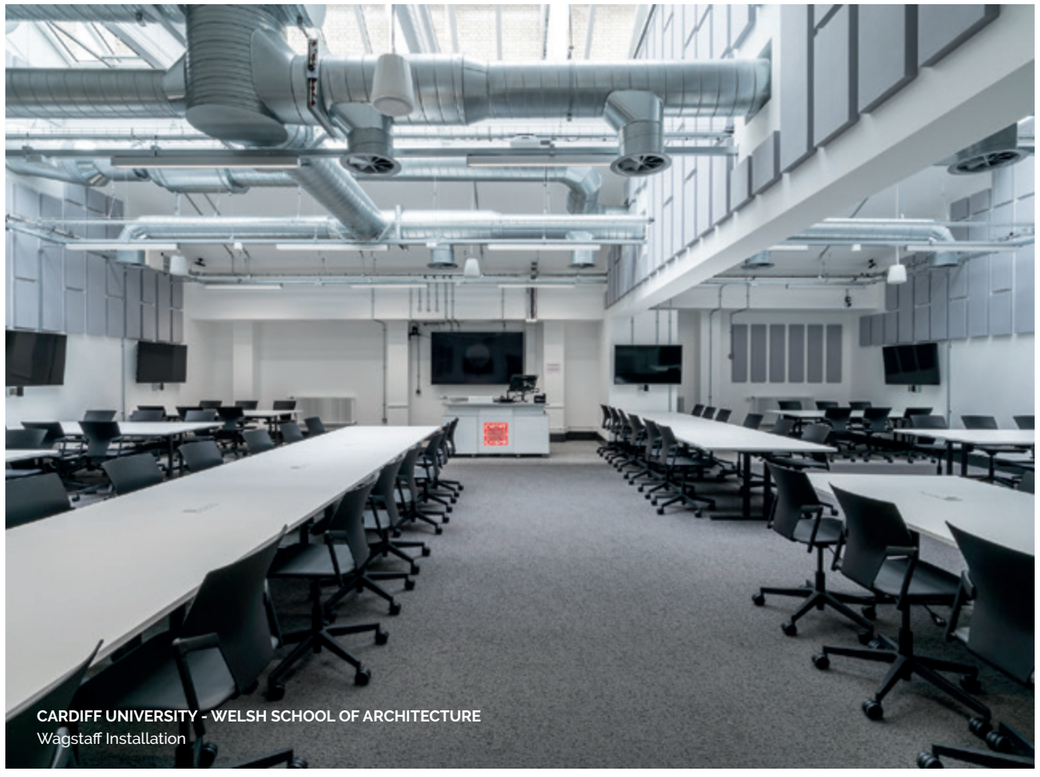

KINGSTON UNIVERSITY - TOWN HALL LIBRARY
Wagstaff Installation

UNIVERSITY OF SUSSEX - STUDENT SERVICES CENTRE
Wagstaff Installation

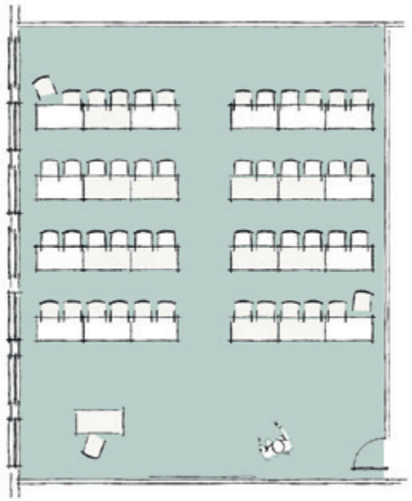

ULSTER UNIVERSITY
Wagstaff Installation

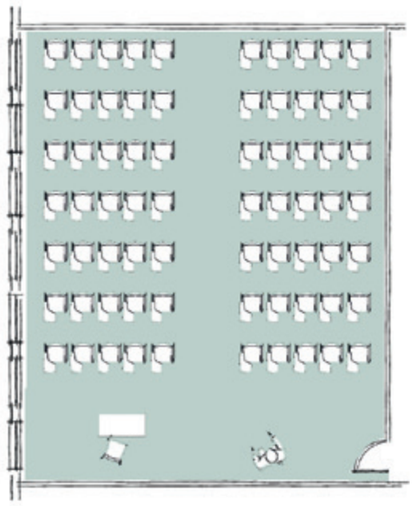

CARDIFF UNIVERSITY - WELSH SCHOOL OF ARCHITECTURE
Wagstaff Installation

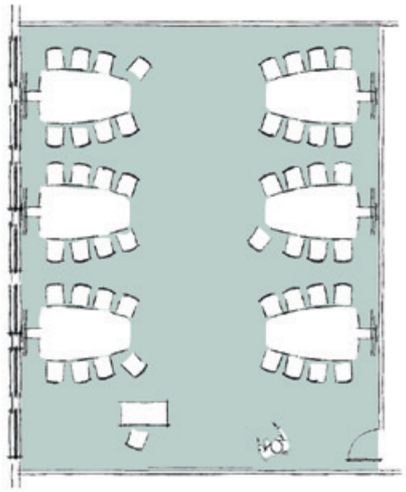

One style of furniture for **one style of teaching**?...

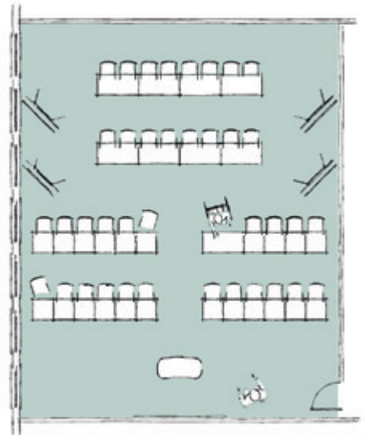

TRADITIONAL FRONT FACING ROWS
tend to stay fixed in position and are uninspiring and unengaging.

TABLET CHAIRS allow for increased capacity, but work surface is limited for collaborative learning, so rooms tend be used purely for this set up.

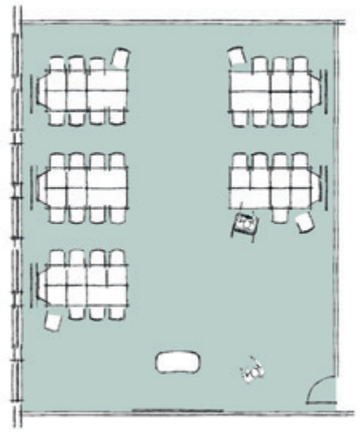

Even the more recent trend of
SHAPED TABLES WITH MEDIA SCREENS
fixed to them are limited. The rooms can only really be used in one way and may become redundant as the IT hardware changes.

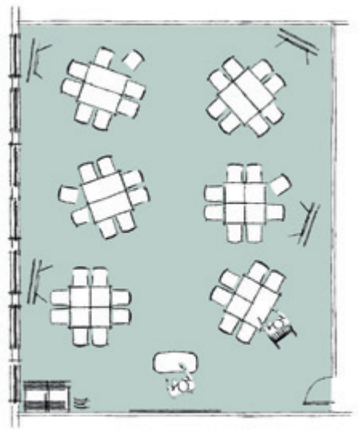

TRADITIONAL – MOBILE SCREENS allow for students at the back to see what is being displayed.

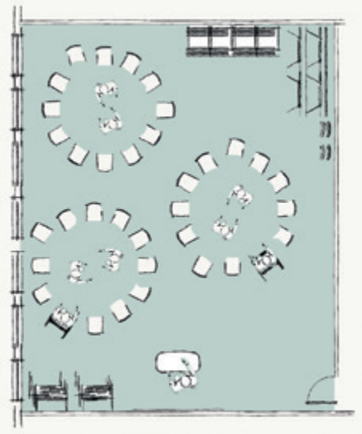

... or one style of furniture **for any style of teaching**?

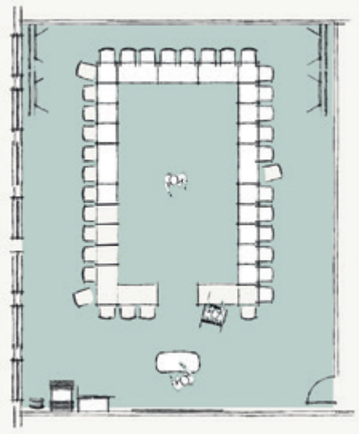

MEDIA – simply move tables up to mobile screens.

BRAINSTORMING
Collaborative teams with mobile whiteboards for workshop sessions.

ROLE PLAY - freedom to break out into more interactive activities.

DEBATE – committee style with engagement from everyone.

Flexibility and mobility in products is key so that rooms can be bookable for different teaching pedagogies and more courses

MIDDLESEX UNIVERSITY - STONE X STADIUM
Wagstaff Installation

Easy to just grab-and-go, chairs such as **GRAFTON** and **MUSE** allow both teachers and students to change the room dynamic in seconds.

Ranges such as **LITE TABLE III** offer small tables that can be stacked.

The two brakes castors allow the tables to be moved easily by students, but the two fixed legs ensure tables grip the floor when placed down.

The ability for both students and teachers to quickly change the room setting enables the academic more freedom to apply dynamic teaching styles

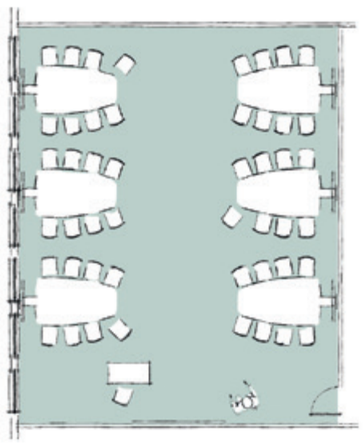

SCRUM TABLES
use as two person table – or quickly move to become group tables.

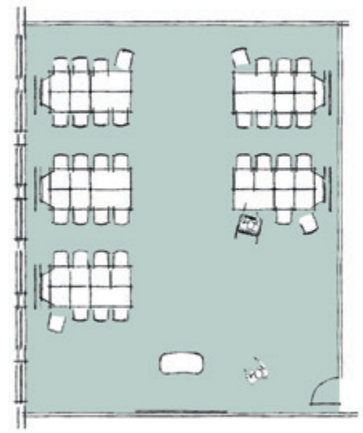

Collaboration tables with fixed media worked well for the task at hand, but the rooms cannot be used for much else

As technology improves, the need for large capacity cable dumps and plug-in HDMI is no longer necessary, and wall fitted TV's mean the building will dictate the room layout.

Whereas, smaller mobile tables can simply be moved up to do the same thing as and when needed

Mobile media screens are not reliant on available wall space. Tables can be moved up for collaboration and then away for different teaching styles.

PORTAL
Boss Design

BOUNDARY
Flo Works

Complete freedom to sit or perch and feel totally relaxed during classes.

The **RUCKUS** is a unique all-purpose chair.

Sometimes, it can be easier to move yourself rather than move the furniture

The hexagonal back of **FLOAT** offers a working platform, much like a tablet that can then be nested to create instant group working.

Accessories allow students to relax without compromising space.

Tablet chairs on castors such as **SKATE** and the **FOURSURE WHEELER** are an immediate way to transform a lesson from individual focus into collaborative groups.

Bring your belongings and dock yourself into the classroom

KING'S COLLEGE LONDON - LIHE
Wagstaff Installation

Or stick with traditional to maximise capacity

Tablet chairs **STRIVE & CURVY** with hinged tablets for added strength.

LEICESTER UNIVERSITY - DAVID WILSON LIBRARY
Wagstaff Installation

ICT CLASSROOMS

Traditionally, products in these high-use areas have focused on durability without enough consideration for comfort or sustainability...

ULSTER UNIVERSITY
WAGSTAFF INSTALLATION

Inbuilt IT becomes outdated too quickly, rendering the furniture redundant

Desks should be simpler on the surface, but with high-capacity cable management as well as sliding tops as standard, for easier access when switching IT.

A typical **TRADITIONAL ICT CHAIR** with fixed backrest and thicker foam seat and back cushioning. These are neither ergonomic nor particularly sustainable.

SE:MOTION CHAIR
Whereas chairs with articulating backrests provide the proper level of ergonomic comfort and all plastic compositions are more easily recyclable at end of life.

EMMA CHAIR

ALLOW ME
TASK CHAIR

Chairs should be durable, but not at the expense of good ergonomics

Using the HÅG in-balance movement, **TION** is a very simple and elegant chair using that has been tested to EN 1335-1 2020 Type B, meaning it is considered ergonomically suitable for standard office use.

GRAZIE CHAIR

WAGSTAFF INSTALLATION

VITRA

TIP-TON – the single piece moulded polypropylene construction is virtually indestructible. The tilt allows for working over tables.

BELLE is a simple wheelie stool with integral bag storage.

Ravelle 1 has a PU seat with integral grab-handle and can be specified to match the correct workbench height

POSTURA
The tried and tested Postura comes in two heights, is lightweight, easy to clean and anti-static.

Seating should be right for the task at hand

SADDLE STOOLS that mix between sitting and perching heights - ideal if working around variable heights.

ACTIVE PONY
The base remains static whilst the seat can tilt 7 degrees.

CAPSICO
Plastic seats or fabric seats and protective foot treads.

Fit-for purpose products for MakerSpace, Colleges & Further Education

Mobility to create various surface sizes as needed – **TRI UNION** tables.

Lipped edges to keep equipment on the table. **LEGO** by Zioxi

CALLERO – a comprehensive range of equipment storage.

CUTTING TABLES by Spaceguard
Industry specific equipment,
e.g. Fashion & Textiles.

Bigger materials = Bigger proportions

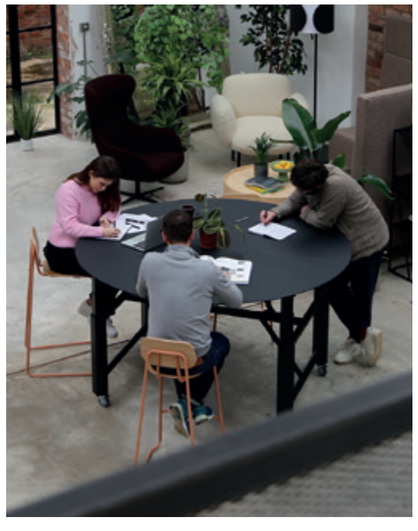

Heavy duty tables to suit the application

Under surface power and integral cabling protect from spills. Fenix tops are resistant to scratches, acids and oils. **BEAM** by Established & Sons.

Create your own graphics and branding **BAD BOY** by Rawside.

Sit-stand, round tops and heavy-duty castors allow for more dynamic working. **RELIC PROJECT TABLES** by Frovi.

PROFESSIONAL & SPECIALIST ENVIRONMENTS

WAGSTAFF INSTALLATION: UNIVERSITY OF EAST LONDON (UEL)

MIDDLESEX UNIVERSITY

A hybrid between office and clinical– ideal for academics involved with research.

DRAUGHTSMAN CHAIRS & STOOLS: L-R
WORKCHAIR (T2) LAB POLY CHAIR & FOURCAST HIGH STOOL
Anti-static PU seating ranges for all types of applications.

BESPOKE SOLUTIONS – design, manufacture and installation for technical and clinical areas.

MIDDLESEX UNIVERSITY
Wagstaff Installation

LECTURE THEATRE

SHEFFIELD UNIVERSITY
WAGSTAFF INSTALLATION

ACADEMICS still require flexibility to teach how they want

ULSTER UNIVERSITY
Wagstaff Installation

Committee style layouts where students can see each other make for more engaging and inclusive sessions.

Spreading the seating out around the room in this way also negates the need for high ceilings to accommodate more tired levels.

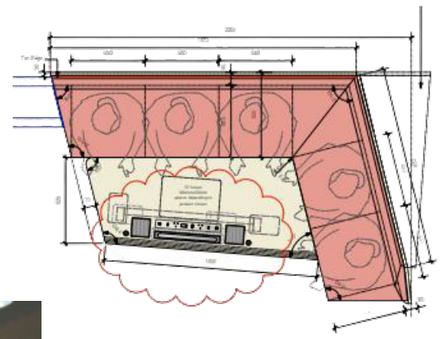

Photos:
Connect Seating by Race Furniture

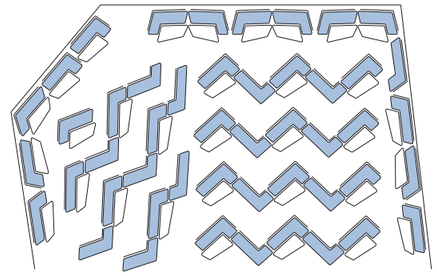

The ability to breakout mid-lecture into a collaborative exercise by dividing students into working groups can be appealing.

CONNECT seating and table system by **RACE FURNITURE** opens up this possibility. The layout can also reduce the height of tiered flooring, making access and design of buildings easier.

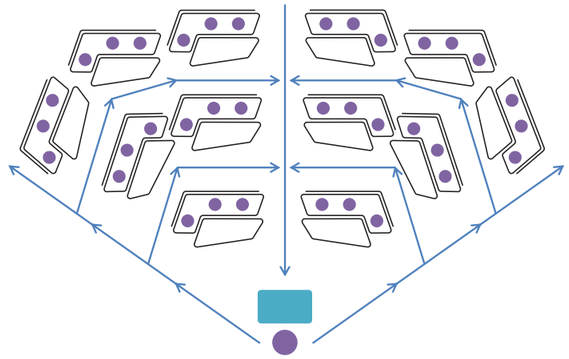

The nature of this set-up allows for more dynamic layouts to be created where teachers can also circulate freely to interact effectively with students.

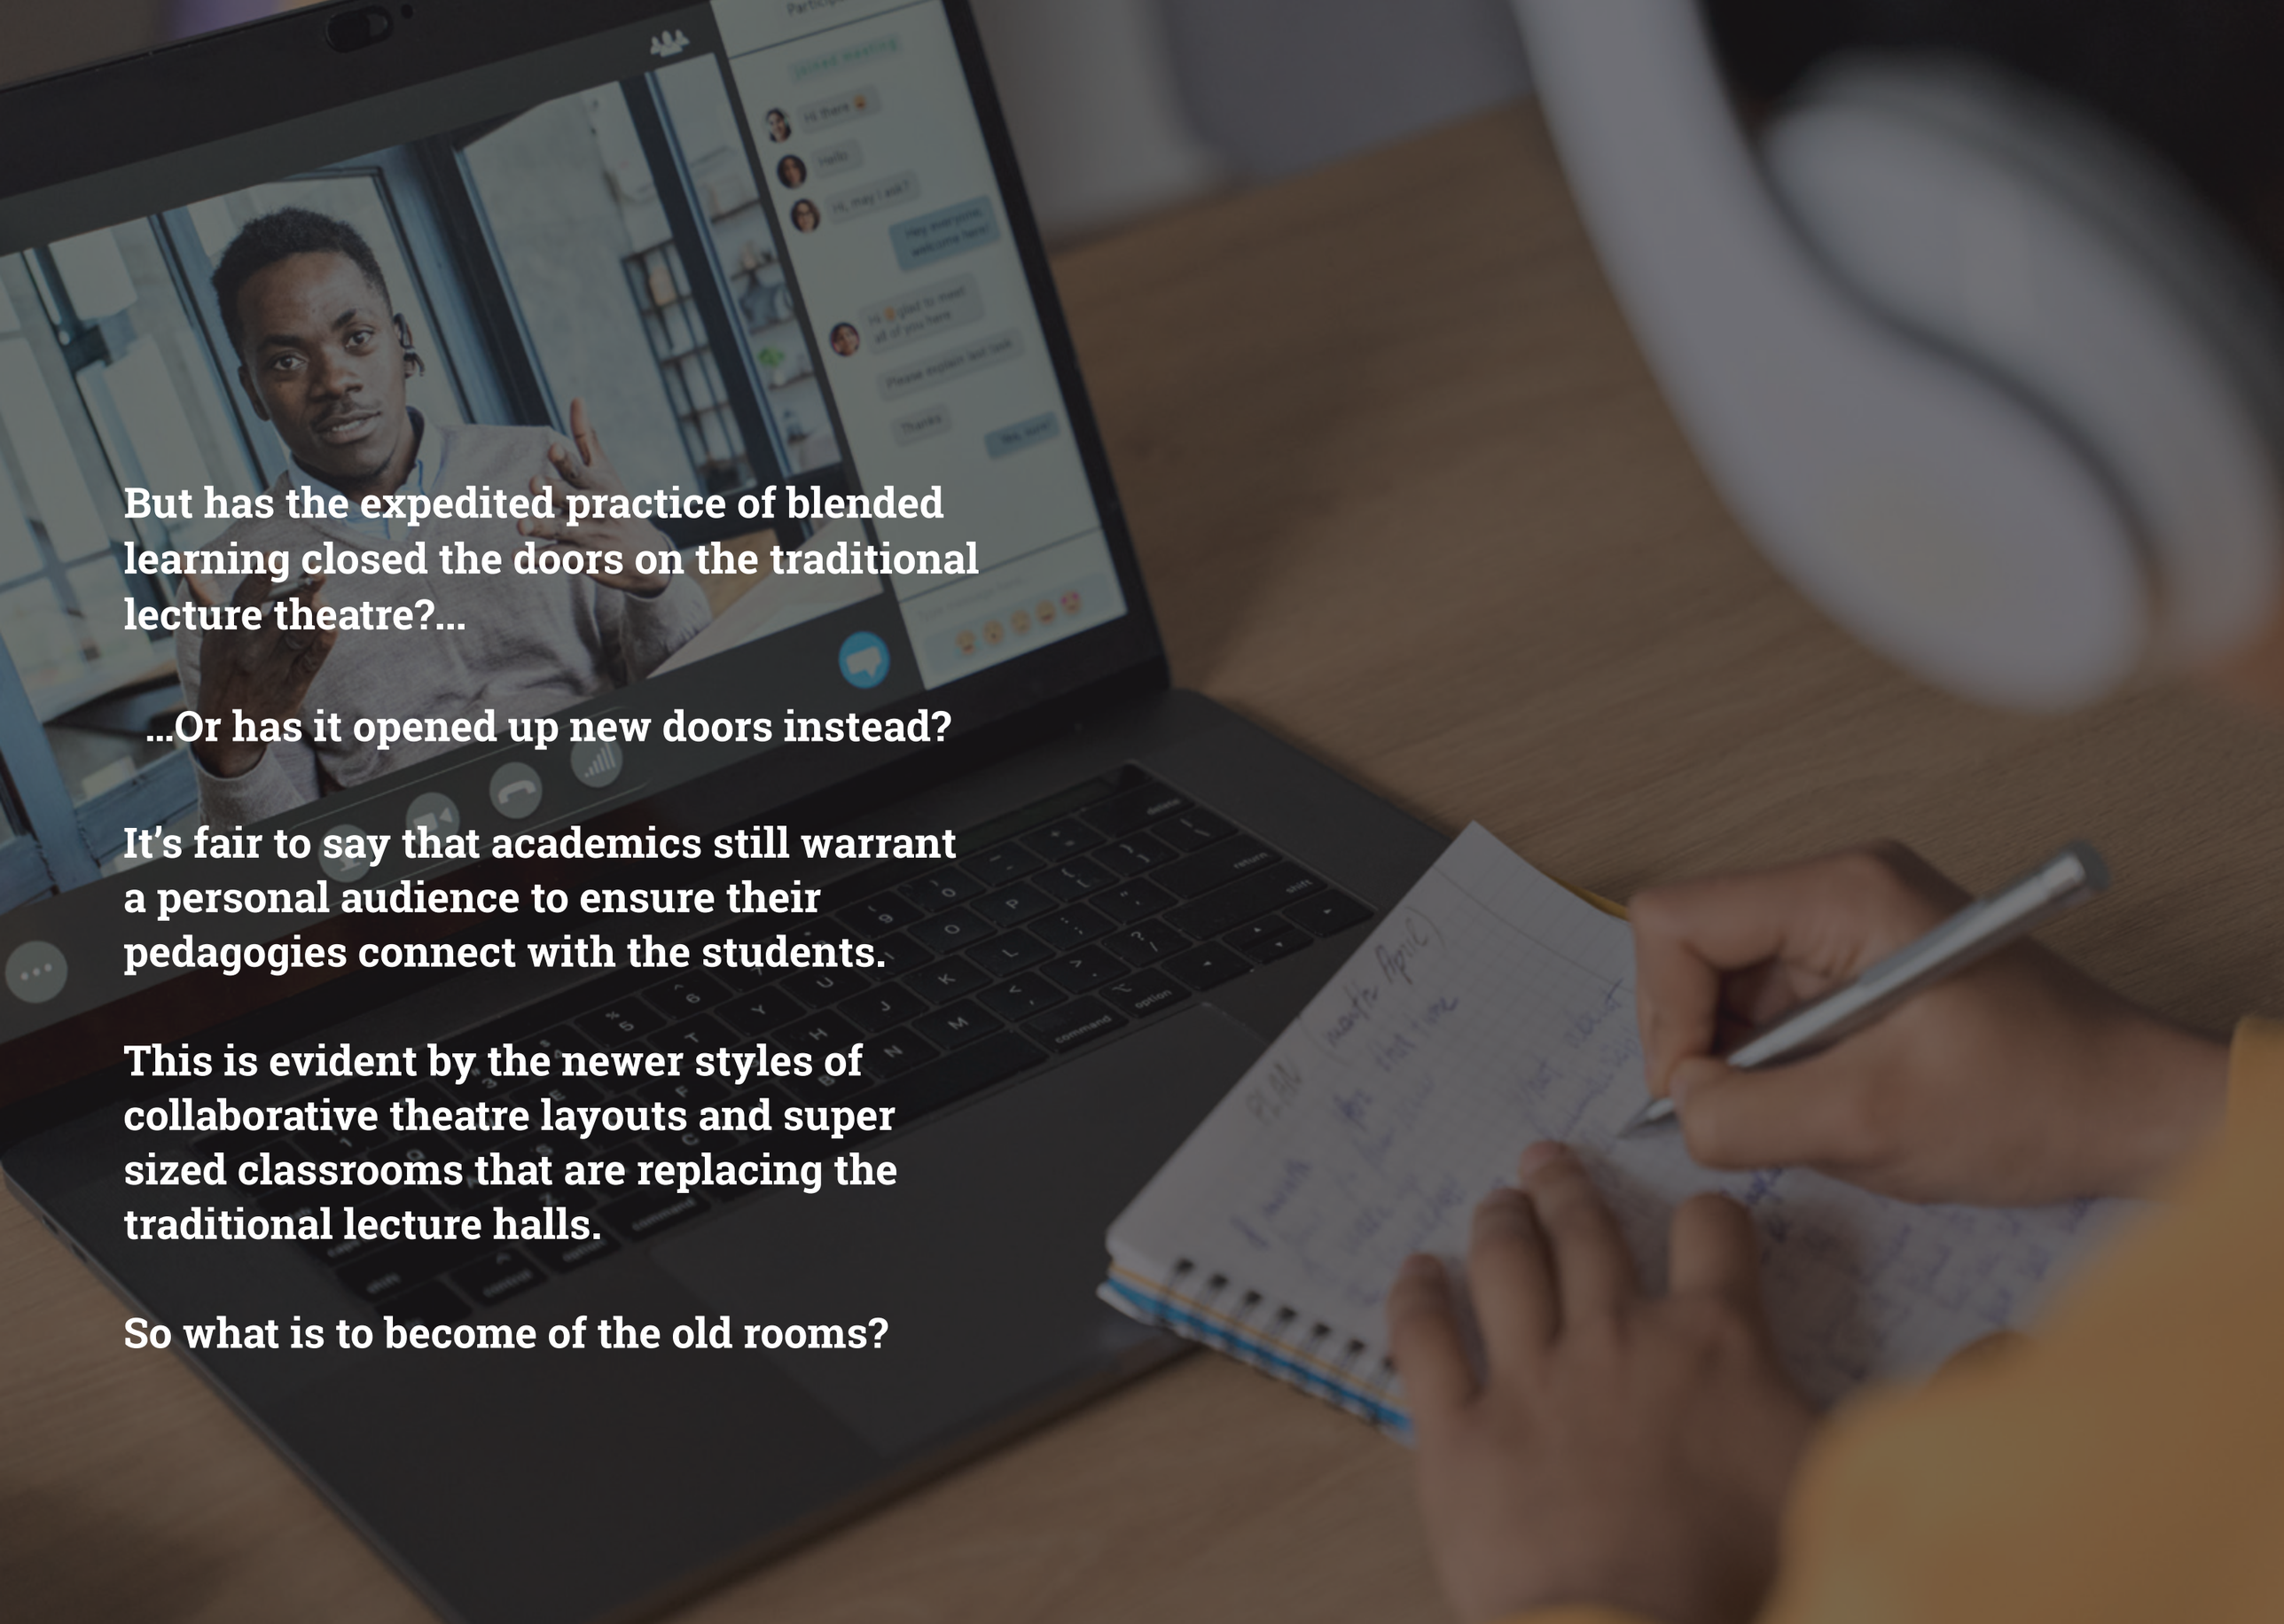

CONNECTED

COMPACT

COLLABORATIVE

But has the expedited practice of blended learning closed the doors on the traditional lecture theatre?...

...Or has it opened up new doors instead?

It's fair to say that academics still warrant a personal audience to ensure their pedagogies connect with the students.

This is evident by the newer styles of collaborative theatre layouts and super sized classrooms that are replacing the traditional lecture halls.

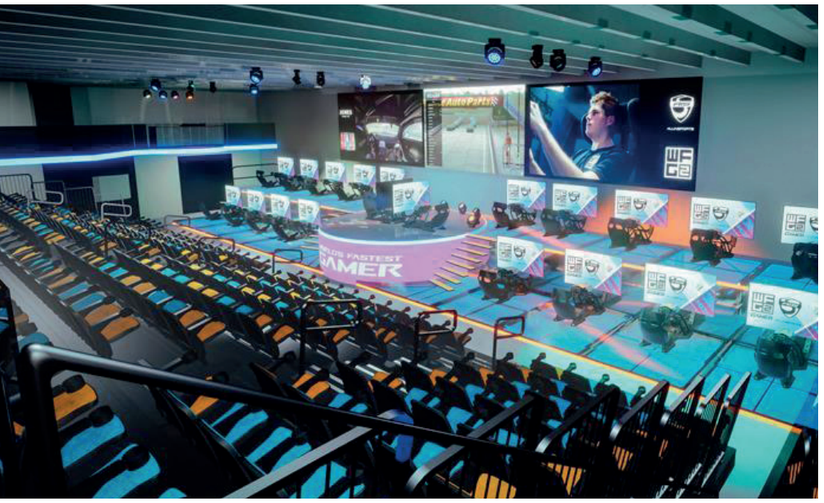

So what is to become of the old rooms?

As they become redundant, these vast rooms could be converted into additional areas to promote positive on-campus experience

Whole centres could be transformed into brand new recreational spaces

ICONINC STUDENT ACCOMMODATION
SMALLER THEATRES may be ideally suited to film study and mini cinema.

E-sports arenas can generate profit through events, sponsorships and refectory sales

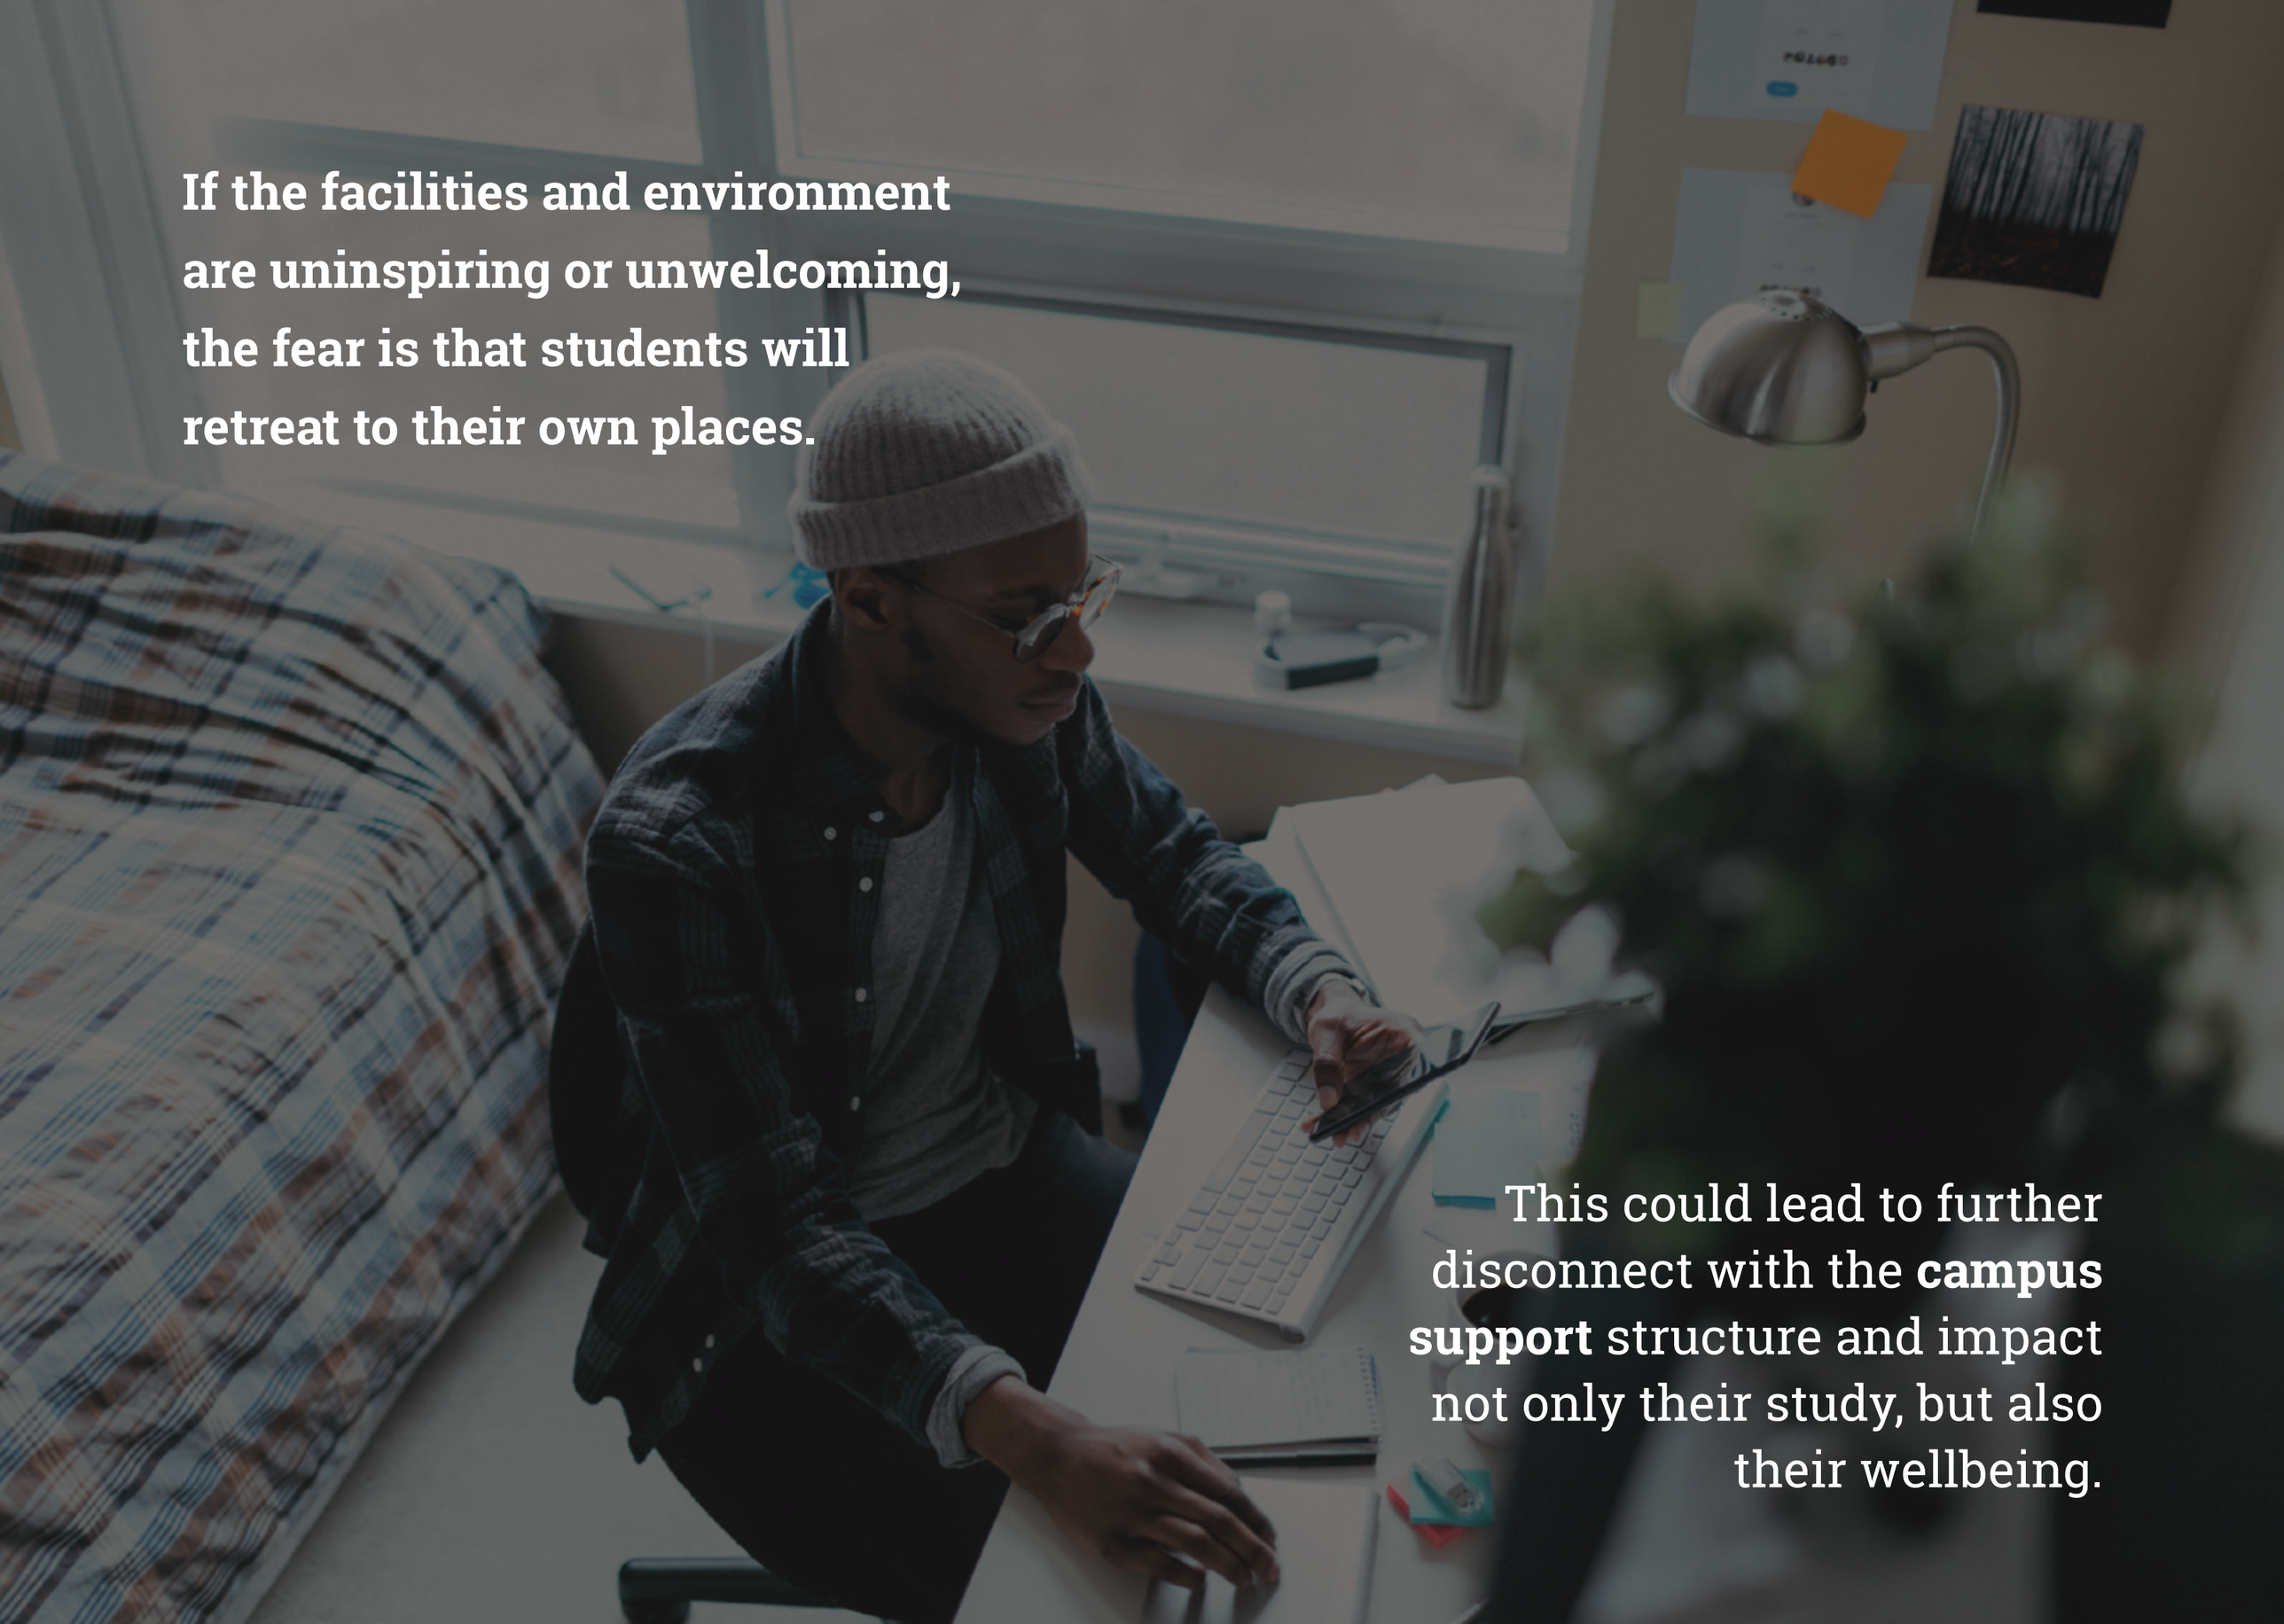

NBS - RAMSBURY HOUSE
Wagstaff Installation

STUDY HUB

PRIVATE STUDY

KINGSTON UNIVERSITY
TOWN HOUSE LIBRARY
WAGSTAFF INSTALLATION

If the facilities and environment are uninspiring or unwelcoming, the fear is that students will retreat to their own places.

This could lead to further disconnect with the **campus support** structure and impact not only their study, but also their wellbeing.

STICKY CAMPUS

Is a place where students would want to spend time even when there is no formal teaching sessions to attend.

It embraces everything that is truly STUDENT-CENTRIC so students fully live amongst their learning.

KINGSTON UNIVERSITY
TOWN HOUSE LIBRARY
WAGSTAFF INSTALLATION

Solitude for focused study
– when peace and quiet is all you want

ULSTER UNIVERSITY
Wagstaff Installation

CHAIRS with smoother shapes and soft finishes help add comfort and a sense of calm to the area.

BETHAN

SNUG

ROOKIE

OMEGA

DUNDRA 102

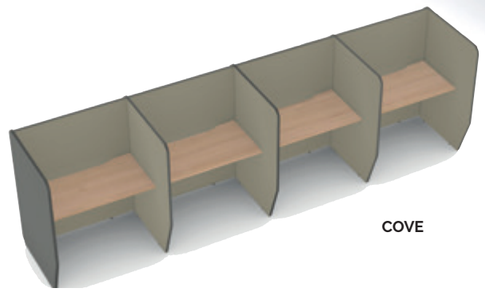

BEA

Individual booths provide the perfect retreat for uninterrupted study.

Alternative shapes, acoustic materials and panels help to break up noise and create a softer architecture.

COPPICE

COVE

CUBB

ATTICUS

Ranges such as **CAPSULE** and **MUSE** have acoustic properties to cut out sound.

MUSE CHAIR

PRIVATE STUDY

Free-standing furniture with surrounds provide seclusion within open areas

Swivel bases on ranges like **PULLMAN** and **AUGUST** allow you to turn away from the general hub-bub.

The mobility of **IN-OUT** allows for reconfiguration of the space without compromise to facility provision

DE VORM

Pod Privacy chair uses sustainable PET Felt moulded into a shroud.

HUDDLE BOX can create interesting impromptu seating spots

Whether it's typing up notes or just chilling out, spaces must be provided for every student

Corridor areas can offer overflow seating or touchdown points for catch up and charging between sessions

UNIVERSITY OF SUSSEX, STUDENT SERVICES CENTRE - Wagstaff Installation

TREEHOUSE – a mobile chill and meet hut that can fit narrow spaces or look great out in the open

HUE provides the perfect place for one or two person study. It also fits neatly into corridor areas. High level for architectural interest or low level for more inclusive setting.

LEICESTER UNIVERSITY - DAVID WILSON LIBRARY
Wagstaff Installation

PLENTI TABLE
CONNECTION

LIBRARY TABLE
ORANGEBOX

Natural woods, soft tones and lighting like **TASK** by Frovi help to create a warm and relaxed environment.

THEO TABLE
NEW DESIGN GROUP

Libraries are naturally quiet areas so larger tables work well providing space to spread out

KINGSTON UNIVERSITY
TOWN HOUSE LIBRARY
Wagstaff Installation

MOVEABLE SCREEN DIVIDERS can be used by students to mark out personal space

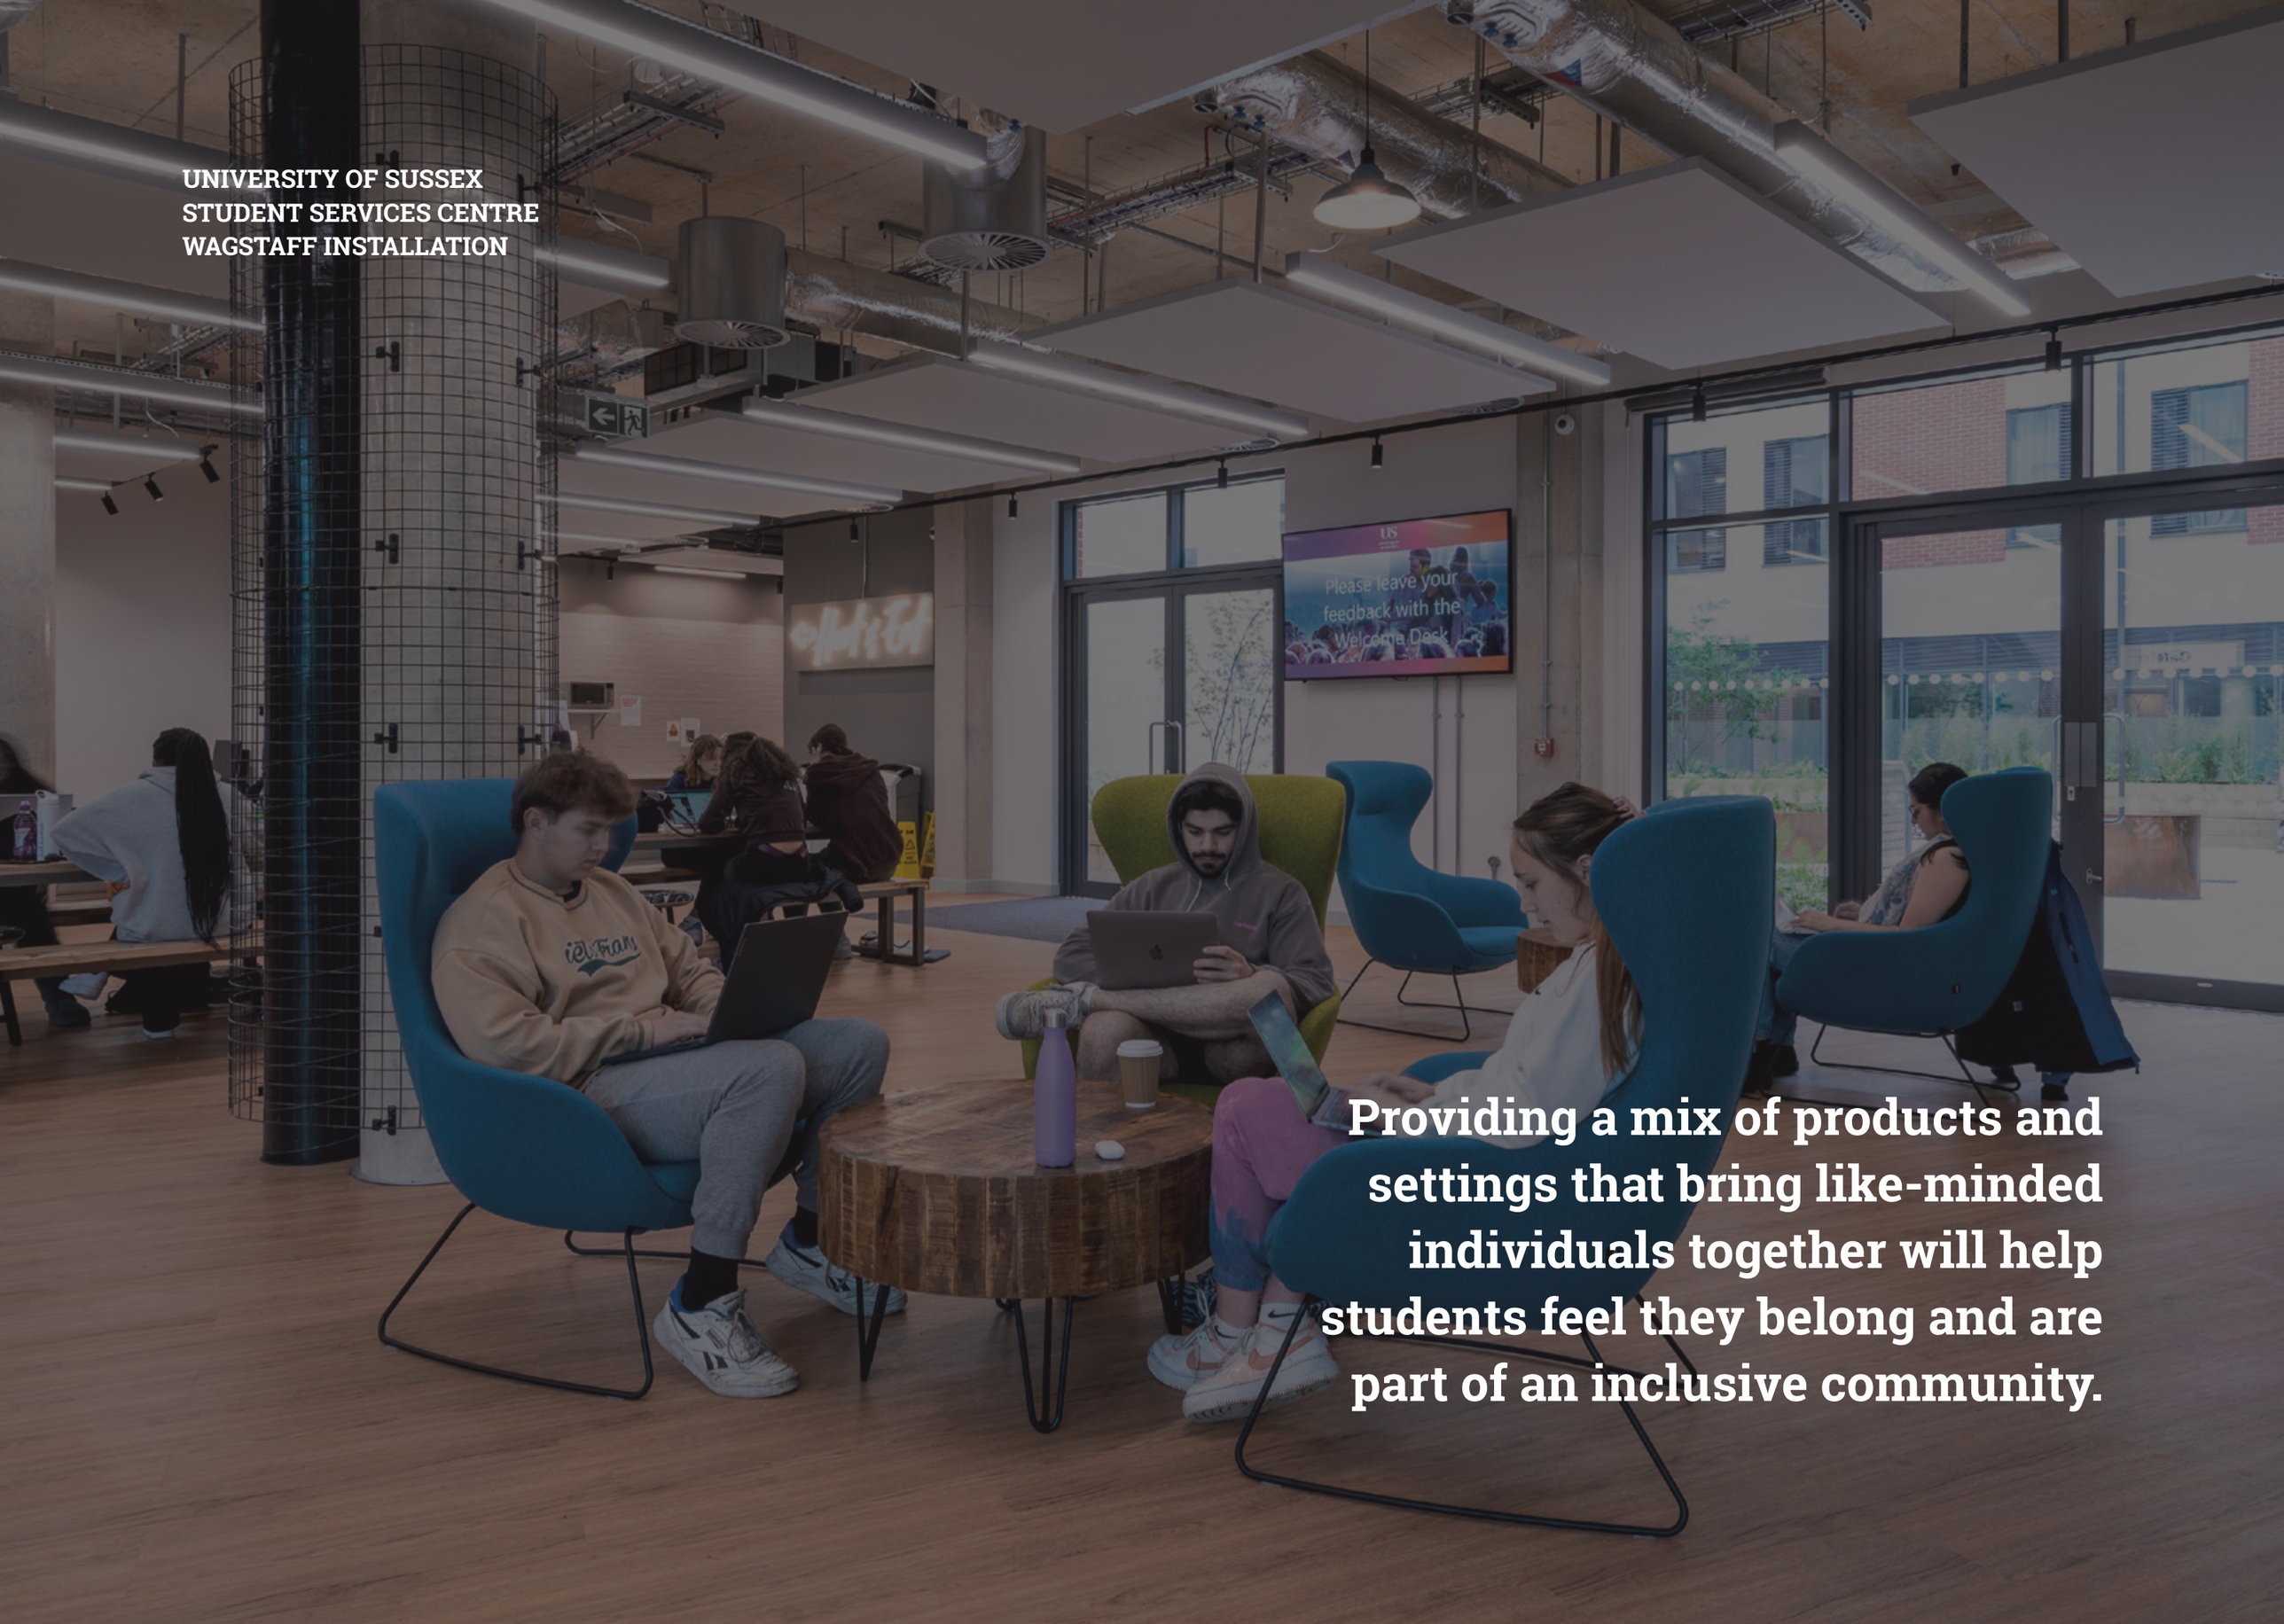

COLLABORATIVE STUDY

UNIVERSITY OF EAST LONDON
YSYP DOCKLANDS
WAGSTAFF INSTALLATION

UNIVERSITY OF SUSSEX
STUDENT SERVICES CENTRE
WAGSTAFF INSTALLATION

Providing a mix of products and settings that bring like-minded individuals together will help students feel they belong and are part of an inclusive community.

FLOAT Tablet armchairs – use alone or turn to face each other.

BEAN AROUND
A sustainable lounger using composted pellets and recycled fabric.

Informal settings allow students to choose where they sit and with whom

PIPPIN – sit and chill in your own time, or pull up a chair together with mates.

UNIVERSITY OF SUSSEX, STUDENT SERVICES CENTRE - Wagstaff Installation

GROUNDED TABLES
Round and pill shaped tables make for incidental social contact.

PICNIC TABLE

But also consider circular designs that naturally lend themselves to group working

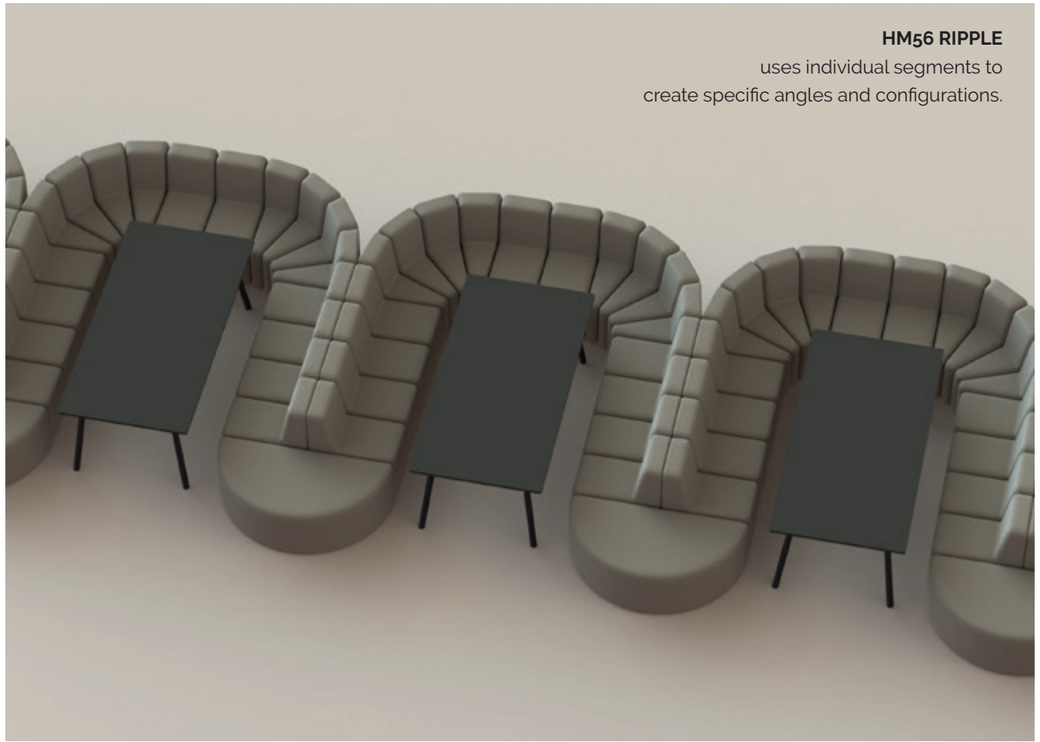

MODULAR SYSTEMS that create corrals also have a similar effect

BEYOND THE DESK
provides an architectural element with back-screens.

HM56 RIPPLE
uses individual segments to create specific angles and configurations.

BAE
Bae modular sofa system is very sustainable, using a Bamboo framework construction.

Applying the right blend of different styles can make a space look simply amazing!!
